

WANT TO SEE SOME REAL CHANGE IN THE 2023 ELECTION? **SO DO WE!**

In the 2020 Election, 225,000 votes were spread across the many minor parties, while one million did not even vote! Meanwhile both Act and Greens got over 200,000 votes, and seats in Parliament.

Imagine if we could unite voters behind one minor party, instead of many. A new party in Parliament that listened to the people.

Join Voters United. We conduct regular polls with you and the minor parties to discover who has the most support. At election time we will encourage our members to unite their party vote behind the party that is leading our final membership poll. Our focus is solely on the party vote, not the candidate vote.

Voters United are not a political party, nor are we affiliated with any political party. We are regular kiwis who want a better New Zealand. Join with us.
